

REMARKS

Independent claim 18 has been added. The claim is more specific than claim 1 in reciting that the control element is resiliently biased while being broader than claim 1 by eliminating the limitation that movement of the piston to its door opening position is by preventing air pressure from acting in the first direction on the piston. A check for \$100 for the filing fee for the additional independent claim exceeding three is enclosed.

Respectfully submitted,

Frank C. Leach, Jr.
Attorney for Applicants
